PERFORMANCE

Our industry-leading Tru-Torq® CVT drive system features a centrifugal clutch for extremely smooth starts and optimal performance. So, whether you work hard, play hard, or both, you always start smooth and finish strong.

UTILITY

Your YANMAR UTV was meticulously engineered to meet every requirement you have of a jobsite machine. The flatbed dimensions fit a standard pallet, and an impressive 1,500 lb. towing ability with a full payload keep your machine ready for any challenge.

DURABILITY

Each UTV is engineered to withstand whatever the job throws your way. An all-steel skid plate and a ROPS structure ensure that you and your UTV are ready for anything.

2 COLORS: Red with Silver Graphics and Green with Silver Graphics

JOBSITE PACKAGE

YANMAR UTVs are built to get the job done. They are perfectly designed to easily load and unload cargo – with convenient pallet-sized steel cargo bed floors. This allows you to work quickly and efficiently. Power steering enables you to maneuver easily around a busy and hectic job site, with a customizable speed limiter to ensure your team's safety. When you spend long days on a worksite, **you need a partner that keeps up with your drive, your determination, and your perseverance – your UTV is that partner.**
